Biomedic Team For WT Center

A two-man biomedical research team for Killgore Research Center has been completed, announced Dr. Alfred A. Kraus, Jr., director of the center.

Completion of the team came with the acceptance by Dr. Marion A. Guidry and Dr. Alfred C. Schram of positions with West Texas State University, home of the research center.

Dr. Guidry will serve as professor of biology and chemistry, as well as project director of the Life Sciences. Dr. Schram will hold the title of associate professor of chemistry and will be co-director of projects of the Life Sciences.

The center, which is under construction now and expected to be completed in January of 1966, will conduct chemical research as a foundation for work at the developing Amarillo medical complex. Such research is one of the three major areas of study planned for Killgore.

The pair's work will be primarily in connection with the center, but they will also teach. "While there will be other teachers working with them, they will comprise the staff which forms the complete team needed for the biomedical research activities of the University," said Kraus.

Guidry and Schram will arrive in Canyon September 1 and begin teaching in the fall semester.

Guidry attended the University of Southwestern Louisiana and Tulane University, receiving BS, MS and PhD degrees from Tulane. He has worked in the fields of enzymes, hor-

Roundup Will Feature Cowboy Sports Events

A new event will be brought to Canyon during the annual Randall County Roundup and Old Settlers Reunion, announced R. B. Allen, president of Randall County Sheriff's Posse.

The celebration, to be held August 6-7, will feature a new "Cowboy Sports Event" for Canyon residents in place of the rodeos usually held in every area town.

Cowboy sports included will be such events as pony express race, ribbon race, barrel race and various others. Only contenders for District 2 of the American Association of Riding Clubs will participate.

The activity will take place in the Sheriff's Posse Arena

east of Canyon at 8 p.m. each evening of the roundup. Admission will be \$1 for adults and 50 cents for children.

Each contestant will be qualified to represent his club at the national finals of the American Association as well. Each event will pit rider against rider, horse against horse and all against the clock.

In addition to these competitive sports there will be a calf scramble for youngsters. Prizes in the calf scramble each night will be \$5, \$3 and \$2. All children less than 12 years of age will be eligible to participate.

Other plans are progressing as well, with the Canyon Chamber of Commerce scheduling all events. It will also sponsor the Old Settlers reunion and a parade.

The reunion will be held between 10 a.m. and 2 p.m., beginning with registration and a visiting period. Luncheon will be served in the Gold Room of East Cafeteria at West Texas State University, and will be followed by a short program. Old Settlers will then be offered a trip through Panhandle Plains Historical Museum.

Plans are not yet complete for the parade but will probably be announced soon, reported parade chairman Raymond Railroad.

Canyon Junior Chamber of Commerce is in charge of the beard contest and a barbecue. Advance tickets for the barbecue may be purchased at Village Drive-In or by calling OLS-3915.

Carter Buys Trail Motel

Joe L. Carter has purchased two-thirds ownership of Trail Motel.

Carter bought the interest June 26 from Clyde K. Carter of Fort Worth. Additional owner is W.T. Roddy of Canyon, who is beginning a full-time real estate business.

Carter, formerly an automobile businessman, had a motel in 1955 in Norman, Oklahoma, but comes to Canyon from Russell's Point, Ohio.

Mrs. Eva Carver is the new manager of the motel hotel. Mrs. Carver, who managed previously a 43-unit motel in Columbus, Ohio, began her work in Canyon July 1. She arrived here June 30.

Mrs. Carver is a member of the Methodist Church. She is a former owner of a beauty salon.

Completion Date Nears

Completion date for the new Girl Scout Building has been set for late August according to Mrs. Charles Nester, scout executive.

"We're still in need of funds to have the building paid for," Mrs. Nester said. The new scout facility will have three meeting rooms and a joint kitchen when completed. It will serve some 15 troops that are registered in the local council.

Schoolmen Eye Education Act

BY LINDA LOVE

Cooperation of the 26 Panhandle counties in establishing a central Panhandle Educational Services Organization was proposed Friday at a meeting at West Texas State University.

Approximately 75 superintendents of schools from the various counties proposed the new organization, which would implement in the Panhandle area Titles One and Two of the Federal Elementary and Secondary Education Act of 1965.

The Education Act is designed "to enrich the educational opportunities of deprived children," said Dr. Emmitt Smith, director of program development and research at WT.

Dr. Fred Stoker, who will become head of the WT Education Administration Department in September, called the meeting. Such a gathering is routine among school administrators of this area when new developments or programs appear in the education field.

The following moves were suggested in the proposal, said Dr. Smith: 1) that the counties group themselves into nine administrative intermediate units, each to be made up of two to four counties; 2) that each of these units organize a controlling board consisting of the superintendents in all school districts involved and the director

Commercial Building Boom Seen In Offing

New Drive-In Due On Hand Property

Impending commercial development has caused a tremor of excitement in Canyon this week.

Carroll Vaughan already has cleared ground for a commercial building at 1911 Fourth Avenue. The lot was a part of the Ira Scott estate until Vaughan purchased it.

A.W. Lair and Dale Williams this week completed a deal for the purchase of Redmond Hand's property in the 2100 block of Fourth at an undisclosed figure.

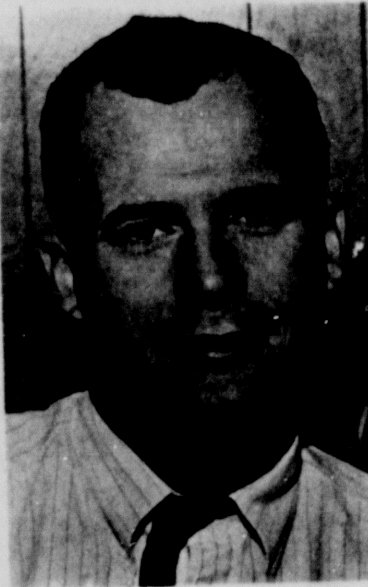

R.B. Allen is in the process of constructing an office building at Fourteenth Street and

Article Tells Canyon Story

Palo Duro Canyon--its history and attractions--is the subject of an article in the July issue of "Texas Parks and Wildlife" magazine.

The article, "Time-Worn Chasm," was written by Jim Thomas of the Amarillo Globe-News. It includes a dramatized description and explanation of the canyon, both from a geological-historical standpoint and from tourist and general interest viewpoint.

Photographs of the new Pioneer Amphitheatre, wildlife and other facets of the canyon appear throughout the feature. Thomas will exhibit his photographs in an August showing at West Texas State University.

Fourth Avenue. In the meantime, there is good prospect of some new commercial development along Highway 87.

Vaughan hopes to have his building ready for occupancy by Sept. 1. He said it will house six businesses other than his own Carroll Vaughan Insurance Agency.

These include Don Kievet's Hobby Shop; Canyon Fabric Shop, a new business here; Chadwick's; a beauty salon; and tentatively a record shop. Vaughan said there is an opening for another tenant.

The fabric shop will be operated by Mr. and Mrs. C.R. Wesley and will handle drapery material and dress fabrics. Chadwick's presently is located next door to the Legion Hall and handles children's wear. It is operated by Mrs. Dorothy Hawkins.

Faye Risner will operate a beauty salon in the new building.

Vaughan said the building will be erected at a cost of some \$60,000. It is to be a steel structure and will be built by A&S Steel Buildings of Amarillo. It will contain 5700 square feet of floor space.

Lair and Williams plan to build a drive-in eating establishment on the hand property. The drive-in will be operated by the Kuku Corporation, a national chain.

Builder is to be Don Mason and work is scheduled to begin within the next 30 days. Announcement is expected soon in connection with prospective development on Highway 87.

Pharmacy School Bid Is Delayed

West Texas State University's bid for a school of pharmacy was delayed Monday when the state Commission on Higher Education deferred action. Decision on a similar request by Texas Tech likewise was deferred.

This means that the decision on the applications will be left up to the Coordinating Board for State Colleges and Universities which will take office Sept. 1.

Staff members were quoted as having said in recommendations on the two applications that no justification could be found for additional pharmacy schools at present. They were quoted as saying Texas has little trouble in replacing yearly losses to the profession of pharmacy.

Downings Get Flooring Job

A Canyon contracting firm Monday was awarded a contract to install terrazzo tile on the ground floor of Randall county court house.

Successful bidder was Jack and Scott Downing with a bid of \$7360. The project is to be completed within 60 days.

The Downings were among six bidders for the job. In other business, the court voted to void a petition brought for the closing of a road in the southwest part of the county.

The petition was brought by Paul Lindsey but drew objection from at least one resident of the area.

Judge Lloyd King read a letter from the Texas Historical Society urging the county to participate financially in placing historical markers at appropriate spots in the county.

The letter said such markers earn \$17.50 each per day for the local economy by attracting tourist trade.

State Highway Department representatives Vernon York and Chili Smith made an appearance at Monday's meeting with a letter informing the court that a county request for the state to assume maintenance of 21.3 miles of paved county road has been postponed.

Smith said the matter will be considered again in February when it will be discussed as a part of the state's 1966 Farm To Market Road program.

The court accepted a bid of \$3,656.38 by Tom Carpenter Equipment Company of Amarillo on a tractor and mowing machine.

Canyon Motor Company with a bid of \$1,999.16, plus trade-in of a 1962 Chevrolet, sold the county a 1965 Oldsmobile for use by the Randall County Sheriff's Department.

Members of the court voted to refund a tax overcharge to Elkins Fruit Company of Amarillo. Tax Assessor-Collector Bill Money requested the refund.

The court authorized Judge King to execute instruments for the county in connection with purchase of rights of way.

WINNERS of Tuesday night's Randall County 4-H dress revue were, left, junior division winner Connie Brazzil, 12-year-old daughter of Mr. and Mrs. John Brazzil; and senior division winner Leta Cranmer, 14-year-old daughter of Mr. and Mrs. E.L. Cranmer. Both girls are members of Westside 4-H Club.

FROM THE CANYON RIM

by Troy Martin

It's here!

Soon we will be involved as deeply in the conflict in Vietnam as we were in Korea.

We now have 75,000 men involved. That figure promises to rise daily until we have 300,000 or more troops committed.

Still remains Douglas MacArthur's stern admonition reiterated last fall by Barry Goldwater.

"In war there is no substitute for victory."

Unless we intend to retreat to these shores and make our stand alone in Fortress America, we cannot quit South Vietnam. To leave that embattled outpost of America's security would mean leaving behind Southeast Asia.

Here at home the President is besieged by liberals and left leaners who would like to see us pull out of Vietnam. Martin Luther King cries "negotiate" and threatens to pull off "sit ins," "teach ins" and "peace rallies" if the President does not do so.

Dr. King either is addled or is the tool of sinister men. Dr. King, who professes to be so concerned with the civil rights of some, apparently would throw away the liberty of teeming millions in Asia.

We have never successfully negotiated with the communists. Events of recent years prove beyond a doubt that a coalition government including reds soon becomes all red.

When we leave Vietnam, we leave India, Formosa, Japan, the Philippines and Australia to the tender mercies of Red China. If we do not honor our treaty obligation to South Vietnam and the countries of Southeast Asia, what ally can trust us?

Lyndon Johnson may soon have to make some decisions the like of which no man in history has yet had to make. He will be beset by erstwhile supporters.

If Johnson persists in meeting force with force when confronted by the Communists, whether they be at home or abroad, look for him to be smeared.

Drew Pearson, who screamed so loudly about religious bigotry only a short time ago, now seems to be trying to prove

that this country was pulled into the war in Vietnam by American Catholics. He named Cardinal Francis Joseph Spellman, probably this country's best known prelate, as a prime mover in this undertaking and linked with him the name of Joseph Kennedy, father of the late President.

Pearson, whose inaccuracies are notorious, quotes from a purported Catholic magazine to prove his points. I've never heard of the magazine and I doubt that many Catholics have.

Cardinal Spellman has never played footsie with the ultra liberal left leaners and for that reason has never been very popular with them. Neither has the doughty churchman of the scarlet hat taken any guff from them.

Spellman was at his best about 15 years ago when he told the boss of a grave digger union where he could go, shouldered a shovel, went to the churchyard and helped dig graves until the union fuss was settled.

The thing Pearson and Martin Luther King seem to have forgotten is the fact that we have a treaty obligation to South Vietnam. For us to pull out under terms less than honorable would put our very hearts in dire and immediate peril.

The city's annual report is included as a tabloid supplement to this week's Canyon News. I think the report is a good one.

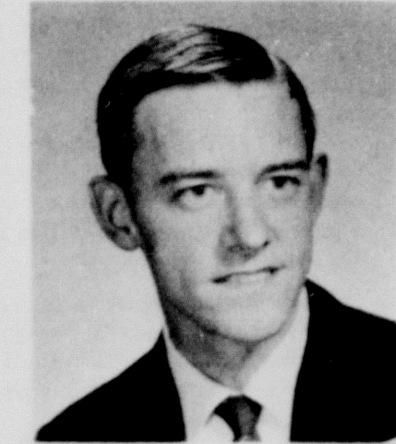

I join in congratulating Dewey Bryant and members of the city commission on the way they have handled the city's business during the past year.

Recent wet weather was of some intangible benefit to Arch Hunsley, developer of Hunsley Hills.

A lot of folks had predicted that Hunsley Hills would be washed away by the first really big rain. Well, we had a record smasher and Hunsley Hills was high and dry.

Residents of the area say the drainage facilities there could have handled twice to three times as much water as they accommodated during recent rains.

Arch is to be congratulated on an engineering feat of some significance.

Art Exhibit Due Sunday

Artist reception for Lee Simpson of Amarillo will be held Sunday, 2-5 p.m., in the Fine Arts Lounge at West Texas State University.

The reception will mark the beginning of an exhibit of 35-40 oils, water colors and drawings by Simpson which will remain at WT through July.

This will be the last professional show of outstanding artists to be presented in the Fine Arts building, said Dr. Emilio Caballero, head of the art department.

In the future the lounge will be reserved for student shows and occasional special features other than paintings. An August exhibit is scheduled for a collection of photographs by Jim Thomas of the Amarillo Globe-News.

Native of Midland, Simpson

LEE SIMPSON began painting while in high school and has been a professional artist for five years. He has studied with Arnold Leonard and William Kolliker of Midland, Ramon Froman of Dallas, and Louise Nevelson of New York.

Simpson is represented by works in Museums of Fine Arts in Houston, Dallas, Tyler and Taos, New Mexico. His paintings are included in private collections in California, Kansas, Oklahoma, Colorado, Florida, New Mexico and Texas.

Monthly Play Day Staged

Randall County Sheriff's Pose was host for a District Two play day at the Canyon arena last Sunday.

National qualifiers will appear in Canyon during the annual Randall County Roundup and Old Settlers Reunion August 6-7.

The fast entertaining events will be run by the top hands of the Panhandle area.

Exhibits of work done during the science course are on exhibit at the Green Room of the west cafeteria on campus today and Friday. The exhibit is open to the public and may be viewed between 7:30 a.m. and 4 p.m. each day.

Approximately 50 teachers are participating in the workshop which has included a number of field trips to area sights such as the local state fisheries laboratory, Palo Duro Canyon, and the flight line and hangars at Amarillo Air Force Base.

"A series of 8 mm film has been made during our trips," said Brim. The film will possibly be used by the Texas Education Agency as classroom study next year according to Brim.

Special speakers for the workshop have been Dr. Robert Burton, geology, Dr. Allen Carlson, physics, and Dr. Art Martin, aero-space agency of Dallas.

Something For The Drone

(An Editorial)

The current issue of U.S. News and World Report has an article in it about some of the possibilities being explored to change the federal income tax laws in the future.

Most of these ideas have to do with giving tax relief to the poor, and prominent among the proposals is one that would increase the exemption from \$600 to \$1000, thus helping the taxpayer at the lower end of the scale.

But there are other ideas that seem to us far-fetched, but we have learned by now not to consider anything the federal government proposes as being far-fetched.

Such as the proposal to give money to every taxpayer who doesn't make \$3,000 a year. This is advanced as a sincere program to lift up the downtrodden and bring everybody's standard of living up. It is estimated that it will cost only \$11.3 billion to raise the income of every family in the United States to a \$3,000 standard, with a government check being sent at the end of the year to those making less than \$3,000.

And where will Uncle Sam get the money to give every family with less than \$3,000 income? It may come out from under the mattress, you may say, but it won't. It will come from those of us who pay taxes on more than \$3,000 a year.

This latest brainstorm is designed to create a nation of dead-beats, if there ever was any such proposal in history. This one beats the Roman circus, the French nobility, any chapter in history where a nation can go broke on idleness.

Where we ever got the notion that an American citizen, merely by being one, has a guaranteed right to a certain standard of income without working for it is beyond us. We are living in curious times.

GERMAN BAROQUE VASE, valued at \$5000 is now on display in the Fine Arts Hall of Panhandle-Plains Historical Museum. The Stratton Vase is 44 inches high and made of porcelain.

Museum Shows Stratton Vase

The Stratton Vase, a 44-inch high German baroque urn, is now on temporary loan to Panhandle-Plains Historical Museum.

Loan of the 1865 work of Pirkhammer porcelain was made by Hamlin Overstreet of Farwell, announced Boone McClure, museum director. Overstreet has been a constant contributor to the museum, is past president of the Historical Society, and serves as member of the board of directors and executive committee.

Present value of the piece is estimated to be at least \$5000. It has a cylindrical base and is designed for central display.

Two scenes, Rape of Europa and Juno and Hebe, are portrayed on the urn, one on either side.

The vase received its name from Winfield Scott Stratton, well known philanthropist who purchased it in Paris in 1899 for \$3000. It was willed to a nephew, Carl Chamberlin, and eventually was shown in Colorado Springs Pioneer Museum.

Music Camp Begins At WTSU Sunday

More than 550 junior and senior high school musicians will participate in the two-week West Texas Music Camp which opens Sunday at West Texas State University.

Featured for the 13th annual camp will be Randall Spicer, director of bands at Washington State University; Mervin Britten, bands director at Arizona State University; and Russell Howland, professor at Fresno State College. Spicer and Britten will conduct two of the advanced bands, while Howland will be the camp's featured woodwind clinician and soloist.

Five bands and an orchestra, a choir, and a special reading band will be organized for the camp, and students will attend daily classes, sectional and full band rehearsals, and receive instruction in baton twirling and drum majoring. Instruction will also be given in stage band, chamber music, theory, and music appreciation.

Planned recreation has been arranged for evenings.

Top band to be organized from among the most advanced students will be the Honors Band, which Spicer will conduct. Symphonic and Concert bands will include less advanced students. The Cadet Honors and Junior High bands will be composed of 8th and 9th grade students.

The Reading Band, to be composed of volunteer high school and college students, will perform recent releases and demonstrate new materials; a director's band will be composed of instructors and visiting area directors, and will perform in concert.

Band directors of the area may enroll for a director's workshop for two semester hours of graduate credit in "Marching Band Techniques." Clinics will be directed by Howland.

Directors for the camp's bands are Spicer, Britten, J.R. McEntyre of Odessa, Fred

Stockdale of Pampa, J.W. King of Hale Center, Orland Butler of Lubbock, Bill Dean of Odessa, and Gene Smith of Denver City.

Conductor of the camp orchestra is Theodore Madsen, director of the WTSU Symphony, and Ben Gollehon of Hereford will direct the camp choir. Twirling and drum majoring will be offered by Bill Woods of Levelland and Roger Acosta, world champion two-baton twirler from Mission.

Among instrumental instructors are Richard Kole of San Antonio, Morris Goolsby of Amarillo, Donald Baird of Enid, Okla., Eldon Sonnenburg of Sherman, Don Hood of Freeport, Clyde Wilson of Hereford, G.T. Gilligan of Kermit, J. Wickersham of Burkburnett, Harry Lantz of Houston, and Rowie Durden, Gerald Hemphill, Gerald Grant, and George Eason, all of WTSU.

remedial work is necessary; provide enriched experiences in the arts; and improve health conditions among deprived children.

Another function of the team would be to increase dissemination of current research findings and compile comprehensive reports of their application. These reports would then be available for use through the improvement team.

Activities involving such educational research would be expected to bring to the campus every year the best minds in the various academic fields to participate in the continuous in-service provided, said Smith. Dr. Smith would devote half his time to the organization as its director.

All finances for the effort would be allocated to the local school districts by the state. West Texas State University Foundation would act as depository for the funds for all 26 counties.

Boards of control of the respective intermediate units would make all decisions as to use of their funds. Smith emphasized that it would be entirely dependent on each board of control as to what the board thinks is needed most in its unit. Local autonomy would be exercised throughout.

Finances available to local districts from the state are set on the basis of the number of deprived children in the district multiplied by half the average per capita cost of public education in Texas. Deprived children are those between the ages of five and seventeen who are from homes of less than \$2000 yearly income.

According to Smith, 1960 census in the Panhandle area shows approximately 8500 deprived children in the 26 counties. Figures for Potter and Randall Counties, which would comprise Unit Six in the proposal, show 2500 such children.

This sum would entitle the unit to \$493,400 under Title One of the act. School districts included in the two-county area are Highland Park, Amarillo, River Road, Umbarger, Canyon and Bushland.

The proposal is being studied now, said Smith, as "each superintendent reacts to it as a person." Once he receives expressions of interest from 15 or 20 administrators, Smith will submit a written proposal to Dr. J.W. Edgar, commissioner of education for Texas.

If the proposal is approved, it will be then submitted to the various boards of education in the region, in order that they may consider their individual action on it. Those who wish to take part will do so, while those who choose not to may remain independent of the organization.

Edgar will not only be responsible for approving the program as a whole, but will be the final judge of state allocations.

Smith anticipates that if the proposal should be put into practice, the first year may be financed by August 1 and a skeleton organization set up by September 1. Full programming will begin by January 1 of 1966, he estimates.

Double Ring Ceremonies Unite Wilson, Prichard

Miss Judy Bea Wilson became the bride of Jerry Dwayne Prichard in a double ring ceremony read last Friday evening.

The bride is the daughter of Mr. and Mrs. W.A. (Bill) Wilson of Canyon. Mr. and Mrs. Lloyd W. Prichard are parents of the bridegroom.

The sanctuary was decorated with an arrangement of white princess gladioli and white snowball mums. Arched candelabra holding lighted cathedral tapers garlanded with emerald clusters flanked either side of the arrangement. Family pews were identified by white satin ribbon and silk roping.

Bridesmaids, Mrs. Tommy Brock of Dawn and Miss Janet Gerald of Canyon, wore sky blue dresses of crystalline, and carried cascade bouquets of white

snowball mums with satin streamers complementing their dresses. Bridesmaid, Mrs. Bill Pipes of Lubbock, wore a dress of the same styling and of a deeper blue, while Miss Joy Harter of Borger maid of honor, was attired in a deep blue dress of crystalline.

Nine members of Girl Scout Troop 14 of the Eager Beaver Patrol earned their Gypsy badge recently by completing the all-day hike requirement.

On the first hike the girls were caught in a hail storm. The following week they were able to complete the hike which ended at the home of Ann Dooley where they were divided into three groups, fire tending, cook, and clean-up. They cooked a meal of American goulash, carrots, marshmallows and watermelon.

The second hike took the troop out to the gun club. Each girl furnished and cooked a balanced meal. After eating the girls followed a Girl Scout trail and found at the end of it a bag filled with candy and tricks for each of them. They were then driven home by their leader, Mrs. Billy Hill, and her helper, Mrs. Charles Hester.

Members of the troop participating were Ann Dooley, Claire Daugherty, Debra Albers, Iva Jeanne Hill, Kim Tully, Linda Hester, Elizabeth Zachary, Beverly Banks and Karen Malzahn.

It has been hot and dry in our vicinity for the past week.

Mr. and Mrs. Woodrow Wesley attended the Range Riders Rodeo in Amarillo one evening last week when their son, Bowie, participated in the rodeo.

Dr. and Mrs. Bob Robinson are taking their vacation this week.

Ella Hext and Ed Turner attended the Range Riders Rodeo in Amarillo one evening last week.

Rose Wesley is able to be back at work since her recent surgery and Othell Whitson is working steadily now. Jimmy Don Whitson is working in Lubbock.

Nig Whitson had surgery for removal of a growth on his knee recently.

Mr. and Mrs. Arlen Wesley, Kyle and Lydia, visited his parents, Mr. and Mrs. Elvin Wesley during the Fourth of July as did their daughter, Susie, who is a student at Midland Business College.

Wife Of Late Artist Praises City Museum

Mrs. Eve Young-Hunter of Taos, wife of the late artist John Young-Hunter, stressed her "deep admiration" for the Panhandle-Plains Historical Museum last Thursday during a stop in Canyon.

"This is potentially one of the great museums of the world," she exclaimed.

Mrs. Young-Hunter was visiting Mr. and Mrs. Boone McClure as a last stop in a tour which took her to the Near East, Europe and the New York

Shower Fetes Bride-Elect

A miscellaneous bridal shower honoring Barbara Wolfington was held Monday evening at the N.D. Watson home.

Miss Wolfington will become the bride of Jimmy Williams in nuptial rites set for August 14.

Guests were received between the hours of 7:30 and 9 p.m. at the Watson home with co-hostesses being Mrs. C.N. Tippery, Mrs. L.D. Hunnicutt, Mrs. Joe Grady Crowley, and Mrs. Earl Gene Peppard.

Blue and white were used throughout the Watson home as the theme for the shower. The serving table was laid with a white organdy cloth over blue and complemented with silver and crystal service.

White wedding bells accented the individual blue cake squares which were served to guests with punch and coffee.

World's Fair. McClure is director of the museum.

Mrs. Young-Hunter discussed with McClure the \$800,000 building program on which the museum has embarked. Plans are to begin the first section of the program as soon as half the total sum is available.

She expressed a strong feeling that the remaining \$165,219.33 must be raised for the first museum addition in order that work might begin soon.

"There is so very much in storage here for which there is no display room," she explained, shaking her head. "In every country I visit I go first to the museums. This has a truly great potential."

"And the most wonderful and unique attraction is that it shows all of the Western life—how the pioneers really lived and the problems they faced daily."

"Not just the best products of the time, but everything about it. This is what should, what must be preserved."

Mrs. Young-Hunter toured the Canyon Art Gallery also.

During her trip abroad Mrs. Young-Hunter visited Egypt, Lebanon, Syria, Jordan and Jerusalem, Israel, Greece and the Grecian Isles, Turkey, Yugoslavia, Austria, Germany, Prussia and England.

Mr. and Mrs. Guy Rains of Fort Worth visited during the weekend in the home of the A. G. Phillips.

MRS. EVE YOUNG-HUNTER and Boone McClure, director of Panhandle-Plains Historical Museum, discuss the museum's current building program. Mrs. Young-Hunter visited Canyon last Wednesday and Thursday on her return from a tour of Near Eastern and European countries.

Top Winners Named In Photo Contest

Winners in first annual "Beautiful Canyon" photo contest were named last week by a group of Amarillo judges.

The contest began in mid-April. All entries were required to be color slides, and had to be taken within a five-mile

radius of Canyon city limits.

First place was won by Crusaders Class of First Methodist Church, in memory of Mrs. Marjorie Doyle. The photograph was of the Joseph A. Hill chapel at West Texas State University. Prize money of \$25 was awarded to the group.

Second prize of \$15 was topped by Blakley Fargason, with third going to Gilbert Wiley, who received \$5.

A complete list of winners in the contest is available at Canyon Drug, sponsors of the contest.

Some 60 entries were made, according to Jim Blake, coordinator of the contest. Judges were members of the Amarillo Photographic Society.

"Society members were so enthusiastic about the contest that they gave themselves the same assignment, that is, to take pictures of Canyon," Blake noted. Their photographs will be shown at a later date in Amarillo and Canyon people will be invited to the show.

Purpose of the contest was to obtain a file of photographs for Canyon Chamber of Commerce. A similar contest will begin this week featuring Palo Duro Canyon. Complete rules are available from Canyon Drug.

Mr. and Mrs. E. B. Essing and daughter, Mary Lynn, have returned home after visiting her grandmother, Mrs. P. M. Wilson of Canyon. They are from Fairborne, Ohio.

Rickshaw Set For Week End

Annual Rickshaw tournament is scheduled to be held at Buffalo Lake July 17-18 with over 100 persons expected to participate in the waterski events.

A sanction tournament, competition will be held in three events, jumping slalom, and tricks. Eight age divisions will be open with overall trophies being presented in each division.

Competition will be held from 8 a.m. until 6 p.m. on Saturday with Sunday's events getting underway at 7 a.m.

Church Installs New Facilities

Two new air conditioners and a public address system were installed at the First Christian Church of Canyon last week.

The new additions were installed in the sanctuary of the church and were purchased through free will donations of church members according to Rev. Charles P. Meredith, pastor.

OFF TO ITALY are Mrs. Ines Cataldi and son Steve, 12. They left Wednesday for Rome, where they will stay for two weeks before touring Italy and visiting other Mediterranean countries. They are scheduled to return home August 16.

Italian Tour Is Trip Home For Mrs. Cataldi And Son

BY LINDA LOVE

Mrs. Ines Cataldi and son Steve left last week for Italy, where they will visit relatives and tour southern Europe.

This will be their first trip home since coming to Canyon more than 10 years ago. Mrs. Cataldi is looking forward to spending two weeks in Rome with her family and relatives of her husband while Steve has the chance to sightsee in the city.

"I'm looking forward most to meeting my cousin Paolo in Rome," said Steve. "They're beginning to play baseball in Italy now, and I've promised him I'd teach him to play."

Steve plans to go diving and look for sea shells when they leave Rome for the southern coast of Italy. He and his mother will travel to Naples, Capri, Salerno and the coast area, then north to the French Riviera, Switzerland and Monaco.

After visiting Milan, Venice and Florence Mrs. Cataldi will return to her home town of Leghorn to visit her mother. They will arrive back in Canyon August 16.

Mrs. Cataldi was born in Sao Paulo, Brazil, after her parents had moved there in 1924 to escape the Fascist regime, but the family returned to Italy while she was still small. She was married to Vincenzo Cataldi August 28, 1951.

In November, 1954, Mrs. Cataldi, who spoke no English at the time, brought Steve to the United States to begin a new home while Cataldi completed

business in Italy. She stayed with her sister Kelli, Mrs. John McBride, who had come in 1946 as a war bride.

Cataldi was able to join his family in 1957, but was stricken ill on arrival in Amarillo and died of pneumonia a week later in an Amarillo hospital.

"I had to support myself," said Mrs. Cataldi, "so not long after Steve and I became American citizens in June, 1960, I entered Amarillo Hairdressing School." She graduated in December of that year, and the following February began work with Leona's Beauty Shop of Canyon, where she is now employed.

Steve, 12, is active in the Boy Scouts. "We're very proud of his being a Scout," Mrs. Cataldi emphasized. "We have planned the trip to Italy for six weeks, but we made certain that Steve had finished all of his camp activities before we would leave."

"I'm so excited, and especially since my friends gave me a wonderful Bon Voyage party," she explained. "Mrs. Clyde Warwick and Mrs. Clay Cooper had a party with a completely Italian theme—Italian food, and

everything in Italy's colors, red, white and green. We're really looking forward to our trip."

Mrs. Cataldi's sister Mara married W.H. Miller while he was stationed in Italy, and five months later they came to Texas. This move was in December, 1954. The couple now lives in Amarillo.

Mrs. Miller has been back to Italy once, in 1959, and Mrs. McBride made return trips in 1949, 1953 and 1957. Mrs. Cataldi is therefore doubly anxious to visit her homeland as have her sisters.

To insure maximum individual attention for each student and his project, enrollment will be limited to 15 students on a first come, first served basis.

While language and math skills will not be taught formally, practical applications of the skills will be made in using the research approach in science. Progress reports will be made to parents and parent-teacher conferences held upon request.

SPACE-AGE elopement? No, this is no version of the traditional ladder-at-the-window. The house was being moved Friday from the 1900 block of 4th Avenue to east of the cemetery.

Canyon Described As Smile Of Panhandle

BY LINDA LOVE

"What was it, Mommy," asked a little boy after seeing "Thundering Sounds of the West," "a dream or something?"

That is apparently the most successful description to date of the historical drama of sound, light and motion produced nightly (except Tuesday) at 8:15 in Palo Duro Canyon.

Seated in the amphitheatre with a 700-foot wall rising before it, the audience becomes a select group invited to witness a dream. What they witness, and participate in, is actually a history and heritage of the dreams which carved a very real life out of the plains of the Texas

Church Teacher Course

Teacher's Training Course began Wednesday evening at the Central Church of Christ in Canyon.

All Sunday morning Bible School teachers and prospective teachers are urged to attend the sessions which will be held each Wednesday evening at regular church time, 7:30, for eight consecutive weeks.

Herman Alexander, pastor of the church, will instruct the classes.

12 Scouts Attend Camp

Twelve Boy Scouts of Troop 31 leave Sunday for a two week Junior Leader Training Camp at Philmont Scout Ranch.

The group of scouts includes Ricky Warren, Sheldon Johnson, Mike Branum, Roger Cist, Mike Jolly, Bill Lumry, Pat Hickman, Ronny Hager, Pete Brasuel, Tom Callarman, Sam Richard, and Fred Richard.

Scoutmaster of the troop is Meredith Warren.

The primary purpose of the national junior leader instructor training camp is to prepare selected senior patrol leaders and assistant senior patrol leaders to assist in training junior leaders when they return home.

Outdoor skills are learned by doing such as fires, axes, wilderness travel, night orientation, and camping. Campers make their own camp and do their own cooking on a patrol basis.

At the end of twelve days at the camp near Cimarron, New Mexico there will be a campfire graduation ceremony with certificates being awarded to each participant. Those who demonstrate outstanding leadership ability will be awarded the Philmont Junior Leader Instructor Training Camp badge.

Missionary Will Speak At Chapel

A visiting missionary from Peru will be guest speaker for Sunday evening services at Faith Chapel in Canyon.

Rev. 'Sonny' Brown will speak at the 7 p.m. service.

Herbert O. Stroud, of Canyon, has been awarded an all-expense paid trip to the national convention of the Woodmen of the World Life Insurance Society, to be held at the Americana Hotel in New York City, July 18-22.

Panhandle.

P.T. Barnum was a master at drawing, then holding an audience through one simple gimmick: he promised attractions which appealed to the public taste or curiosity, and once the people were inside produced additional, unexpected wonders of even more lasting value.

This is essentially the same success formula used in "Thundering Sounds of the West." The show begins with a pioneer town at the foot of the bluff serving as locale for singing, dancing and pioneer sketches. The entertainment is presented by an attractive and talented bunch of young performers.

Yet this is only the package in which the program is most pleasantly wrapped. The supporting cast of fluctuating size and varied experience offers a constantly changing performance which seems amateur only in its personal involvement in the story. But the principal role is that of the Spirit of the West made tangible in earth and stone, and this part is played to perfection by Palo Duro Canyon.

Between musical performances the audience is suddenly left alone with only the canyon, temporarily veiled in darkness, as a companion. The spectator faces the strange new monster warily.

Then there is a voice introducing it, and sounds of life begin to be heard. Lights play here and there. A spotlight captures complete attention, pointing out portions of the desert-and-stone cliff.

Sound is no longer just a voice from the back of the theatre; light is more than a reflection upon the canyon's face. The whole valley echoes with life, sounds coming from behind rocks and within bushes, while other parts of the giant scene begin to appear and glow.

Palo Duro has been called "the smile of the prairie," according to the program narrator, but under the direction of Heritage Foundation technicians and workers, the canyon does much more than smile.

In breathtaking sunset colors the canyon promises riches of many kinds; over sounds of thunder and howling winds, the towering mesa threatens. It frowns, it walls, and at times it even laughs at those who have ventured to its rim or to its floor. But always it speaks, telling the story of its ageless lifetime in its scarred and layered walls.

The audience has made a new acquaintance, and so is invited to step further into the dream, to see the earth move, thrusting up its craggy rim, and to see Man come.

The canyon's voice yields to those of Indians in search of shelter, Spanish and French seeking gold and animal wealth, the Mexicans as they conquer and convert, and finally the Texans, coming to wrest their freedom from Mexico and found a new republic. All the while mood is established by effective background music, such as Timonkin's beautiful habanera from "The Alamo."

This tale is well portrayed by young actors who are seen in black-out sequences acted out on the sloping canyon side. Often ignored in all types of drama, the great importance of motion has been treated with respect in direction of these

scenes, making them that much more vivid.

At first skeptical, the audience finds the hulking stranger transformed into a many-faceted friend. The experience in combining entertainment with wondrous surprises spells success and pleasure today as surely as in Barnum's time.

Any successful production depends, nevertheless, on technical skills as well, and Pioneer Theatre boasts the best equipped outdoor theatre this side of the Mississippi. This is borne out by the smooth coordination of light, sound and action, as well as the clarity of every word spoken in the program.

"How the West Was Won" serves as theme for the show. First heard in the opening as a covered wagon full of singers rumbles along the trail and in-mance which seems amateur only in its personal involvement in the story. But the principal role is that of the Spirit of the West made tangible in earth and stone, and this part is played to perfection by Palo Duro Canyon.

It supports a stirring finale as six mounted riders gallop through the canyon bearing the waving flags which have flown successively over Texas.

According to this musical theme, "dream by dream they built a nation of this land;... we won't forget them, and how the West was won." It was a dream, as the youngster said, and with the aid of "Thundering Sounds of the West," it will surely not be forgotten.

ACCIDENT NEAR BUFFALO STADIUM injured three occupants of this pickup early last Friday morning. Traveling north on Highway 87, the truck left the road and struck a tree.

Pickup Wreck Injures Three

Three persons were injured early Friday in an accident on Highway 87 near Buffalo Stadium.

According to Highway Patrolman James Cadenhead, Tom Dunham, 17 of Delavan, Wisconsin, fell asleep at the wheel of the pickup he was driving. The north-bound vehicle struck a tree beside the highway.

Cadenhead estimated that the pickup was traveling about 60 miles per hour when it crashed into the tree.

Canyon Fire Department was called as a result of spilled gasoline around the truck. Fire Captain Joe Rice and Fireman R.L. Glanton stood by in case the still leaking gas should spark but no action was necessary.

With Dunham were William Ponder, 44, also of Delavan, and Tim Fennell, 14, of Racine, Wisconsin. Ponder and Fennell were in the back of the truck at the time of the accident.

The three were taken to Neblett Hospital, where Dunham was treated for a cut on his right leg. Ponder for multiple bruises and Fennell for a sprained ankle. They were listed in satisfactory condition following treatment.

DO PHYSICIANS TREAT THEMSELVES?

Of course not, unless there is no other available doctor. They know that anyone has great difficulty trying to be objective about their own ailments.

Sickness symptoms are most confusing, for many diseases have similar pains or discomforts. A headache can be the result of more than a dozen different causes. The problem is to determine which one. When you are sick, do what physicians do. They consult another physician.

YOUR DOCTOR CAN PHONE US when you need a medicine. A great many people entrust us with their prescriptions. May we compound yours? Registered pharmacist on duty.

TO THE CITIZENS OF CANYON:

The information contained in this Annual Report represents a fragmentary picture of the operations of the City of Canyon during the past twelve months. It has been prepared in hopes of accomplishing a two-fold purpose. First, to allow you the opportunity to better acquaint yourself with the personalities and functions of the City Commission and Staff of the City of Canyon and secondly, to express our appreciation to you for having had the opportunity to serve you during the year.

It is a distinct pleasure to reappraise the accomplishments of the year, and in doing so recognize a few of the many people who have been instrumental in "getting the job done". Canyon is most fortunate to have an abundance of dedicated and civicminded leaders. The City Commission represents a portion of that group and is deserving of special recognition. Few citizens are cognizant of the personal sacrifices that these gentlemen so eagerly make in serving their fellow citizens. There are also numerous citizens who voluntarily serve their community as members of various advisory or regulatory boards or commissions and an outstanding team of volunteer firemen who function with remarkable success.

We are gratified to review this year's activities and welcome the opportunity to continue our endeavors toward making Canyon a city which others would like to model theirs after. This is a challenging goal, and yet one we are confident we can achieve.

Sincerely,

Dewey L. Bryant
